

Response to Dave Thomas

Public Transport Operational Development and Delivery Manager Welsh Government -  
On Subject of Engagement Group Consultation

23rd November 2014

Dear Mr Thomas,

Thank you for inviting our thoughts on Rail Matters in Wales.  
Our interests revolve around the South East of Wales and as an action group our aims are:-

- 1.1. To work towards the provision of a station and rail services to serve the residents and those who travel to the Magor & Undy area.**
- 1.2. To represent the interests of users and potential users of rail (including light rail or tram) services in the area.**
- 1.3. To raise awareness, encourage and promote the use of rail travel for residents, visitors, business users and tourists, including supporting tourism/leisure, community development projects and local businesses; therefore enabling local communities to increase their economic, social and environmental welfare.**
- 1.4. To foster and encourage sustainable transport and work towards maximising transport integration with the rail services for the Magor & Undy area.**

### Rail Development

2.1. Development of the Magor with Undy Community Walkway Station. In the centre of an expanding commuter community linked to the prospective new Community Centre.

2.2. Development improvements to the Park & Ride at Severn Tunnel Junction with access on and off the M45/B4245.

2.3. Introduction of the Tram Train Metro Service over the electrified Relief lines to Severn Junction as a minimum.

Yours Sincerely

Laurence Hando

Chairman

MAGOR

Magor Action Group On Rail
